AMBULATORY SURGICAL TREATMENT CENTER QUESTIONNAIRE FOR 2023

This is a formal request by IDPH for full, complete and accurate information as stated herein. This request is made under the authority of the Health Facilities Planning Act [20 ILCS 3960/]. Failure to respond may result in sanctions including the following:

"A person subject to this Act who fails to provide information requested by the State Board or State Agency within 30 days of a formal, written request shall be fined an amount not to exceed $1,000 for each 30-day period, or fraction thereof, that the information is not received by the State Board or State Agency." [20 ILCS 3960/14.1(b)(6)]

This questionnaire is divided into 2 sections:

Section I
Collects information on your facility and facility utilization.
This part must be reported for CALENDAR YEAR 2023.

Section II
Collects Financial and Capital Expenditure information for your facility.
This part must be reported for the MOST RECENT FISCAL YEAR AVAILABLE.

This survey must be completed and submitted by April 1, 2024.
No exceptions or extensions will be allowed.

Facilities failing to submit this questionnaire within the required time frame will be reported to the Illinois Health Facilities and Services Review Board for its consideration of the imposition of sanctions mandated by the Act.

If you have problems or questions concerning the survey, please contact this office via e-mail to DPH.FacilitySurvey@illinois.gov, or by telephone at 217-782-3516.

Please enter the following information on for your facility:

ASTC License
ASTC Name
ASTC Address
ASTC City **IL** **Zip Code**

Federal Employer Identification Number (FEIN)

Instructions for Completing and Submitting this Questionnaire
Fill in the questionnaire information.
Download and complete Patient Origin spreadsheet (optional).

Save completed questionnaire (and spreadsheet, if used) to your computer for your records and future reference, if follow-up is required.

Send Email, with completed file(s) attached, to DPH.FacilitySurvey@illinois.gov.
Please put "ASTC Questionnaire" in the subject line.

If you have any questions, please call 217/782-3516, or send email to DPH.FacilitySurvey@illinois.gov

Thank you

TOTALS	0	0	TOTAL PATIENTS SERVED 0

*__Other Public__ payment includes individuals whose primary payment source is Veterans Administration, County Boards, Community Aid Agencies, grants, CHAMPUS, CHAMP-VA, and other government-sponsored programs, excluding Medicare and Medicaid.

"Charity care" means care provided by a health care facility for which the provider does not expect to receive payment from the patient or a third-party payer. [20 ILCS 3960, Section 3] Charity care does not include bad debt or the unreimbursed cost of Medicare, Medicaid, and other federal, State, or local indigent health care programs, eligibility for which is based on financial need.

7. Patients by Place of Origin - Calendar Year 2023

Optional Reporting Method:

For your ease of reporting, we have supplied a Microsoft Excel worksheet for the entry of Patient Origin Data:

1. **CLICK HERE to ACCESS THE WORKSHEET**.
2. Save the worksheet to your computer.
3. Follow the directions on the worksheet to enter your data.
4. Email the completed spreadsheet to DPH.FacilitySurvey@illinois.gov
5. Retain a copy of the worksheet in case follow-up is required.

If you do not wish to use the Patient Origin worksheet, please use the spaces below to report the place of origin of the patients seen at your ASTC during Calendar Year 2023, and the number of patients from each area. 5-digit Zip Code areas are preferred; if Zip Code information is not available, please report by county name.

a. Operating Rooms (Class C)*	
b. Procedure (not operating) Rooms (Class B)*	
c. Examination Rooms	
d. Stage 1 - Post-Anesthesia Recovery Stations	
e. Stage 2 - Step-down Ambulatory Recovery Stations	

*Operating Room (Class C): Operating Room is defined as a setting designed and equipped for major surgical procedures that require general or regional block anesthesia and support of vital bodily functions.

Surgical Procedure Room (Class B): Surgical Procedure room is defined as a setting designed and equipped for major or minor surgical procedures performed in conjunction with oral, parenteral, or intravenous sedation or under analgesic or dissociative drugs.

12. SURGICAL UTILIZATION FOR CALENDAR YEAR 2023 - PROCEDURE ROOMS (Class B)*

For each listed surgical procedure category, indicate the number of dedicated procedure (non-operating) rooms, the number of surgical cases, the number of hours spent in setting up the procedure rooms for use, the hours of actual surgical time, and the number of hours spent in clean-up after the procedure was completed. Round the time reported to the nearest quarter of an hour. For example, a total of 318 hours and 40 minutes would be rounded to 318.75 hours for reporting purposes.

If your facility performs other, unlisted non-operating room procedures, use lines e. - h. to report these procedures. Indicate the type(s) of procedure(s), the number of surgical cases, the number of hours spent in setting up the procedure rooms for use, the hours of actual surgical time, and the number of hours spent in clean-up after the procedure was completed. Total multi-purpose procedure rooms are to be reported in the line below the table.

NOTE - For reporting purposes, a case is defined as a **PATIENT TREATED**. If a patient has 3 procedures performed, that is counted as **1 CASE**. **TOTAL PROCEDURE ROOMS** must equal Procedure Rooms reported on line b., Question 9. Total Procedure Room Cases shown here plus Total Operating Room Cases from Question 11 on Page 9 must equal Total Patients Served reported in Questions 5 and 6.

The green figures on the last three lines are automatically calculated. You cannot change these figures.

Section II - Fiscal Year Financial and Capital Expenditures Data

The data requested in this questionnaire are authorized
pursuant to the Illinois Health Facilities Planning Act [20 ILCS 3960/5.3]

This information must be taken from your MOST RECENT ANNUAL FINANCIAL STATEMENTS, which include your INCOME STATEMENT and BALANCE SHEET. Allowable sources of financial information include AUDITED FINANCIAL STATEMENTS, REVIEW OR COMPILATION FINANCIAL STATEMENTS, or TAX RETURN for the MOST RECENT FISCAL YEAR AVAILABLE.
This part of the survey collects Financial and Capital Expenditure information for your facility. This part MUST BE REPORTED FOR THE MOST RECENT FISCAL YEAR AVAILABLE.

If you have problems providing the information requested, contact this office via email at DPH.FacilitySurvey@illinois.gov or by telephone at 217-782-3516.

Indicate the Starting and Ending Dates of Your MOST RECENT FISCAL YEAR (mm/dd/yyyy)

Private Insurance	
Private Payment	
Total Revenue	$ 0

***Other Public** payment includes individuals whose primary payment source is Veterans Administration, County Boards, Community Aid Agencies, grants, CHAMPUS, CHAMP-VA, and other government-sponsored programs, excluding Medicare and Medicaid.

C. TOTAL ACTUAL COST OF SERVICES PROVIDED TO CHARITY CARE* CASES DURING THE REPORTED FISCAL YEAR

	Amount (in Dollars)
Total Actual Cost of Services Provided to Charity Care* Cases	

**"Charity care"* means care provided by a health care facility for which the provider does not expect to receive payment from the patient or a third-party payer. [20 ILCS 3960, Section 3] Charity care does not include bad debt or the unreimbursed cost of Medicare, Medicaid, and other federal, State, or local indigent health care programs, eligibility for which is based on financial need.*

Term	Definition	Reference
Adult cardiac catheterization	Cardiac catheterization of patients 15 years of age and older	According to Administrative rule 1110.1320
By or On Behalf of a Health Care facility	Any transactions undertaken by the facility or by any other entity other than the facility which results in construction or modification of the facility and directly or indirectly results in the facility billing or receiving reimbursement, or in participating or assuming responsibility for the retirement of debt or the provision of any services associated with the transaction.	
Case	Case is defined as a patient encountered in an inpatient or outpatient setting. For example, if 3 surgical procedures are performed on an individual, only 1 case is counted.	
Cardiac Catheterization Labs	Includes labs that are dedicated as well as non dedicated cardiac labs for diagnostic, interventional and electrophysiology procedures. Total cardiac labs will be more than or equal to the sum of dedicated cardiac labs.	
Cardiovascular Intervention or Treatment	All interventional cardiac procedures performed on a patient during one session in the laboratory (one patient visit equals one intervention regardless of number of procedures performed).	
Capital Expenditure	Any expenditure: (A) made by or on behalf of a health care facility . . . and (B) which under generally accepted accounting principles is not properly chargeable as an expense of operation and maintenance, or is made to obtain by lease or comparable arrangement any facility or part thereof or any equipment for a facility or part . . . and includes the cost of any studies, surveys, designs, plans, working drawings, specification and other activities essential to the acquisition, improvement, expansion or replacement of any plant or equipment with respect to which an expenditure is made . . . and includes donations of equipment or facilities or a transfer of equipment or facilities at fair market value.	
Charity Care	Care for which the provider does not expect to receive payment from the patient or a third party payor. Charity care does not include bad debt or the un-reimbursed cost of Medicare, Medicaid, and other Federal, State, or local indigent health care programs, eligibility for which is based on financial need. In reporting charity care, the reporting entity must report the actual cost of services provided, based on the total cost to charge ratio derived from the hospital's Medicare cost report (see Reference), and not the actual charges for the services.	CMS 2552-96 Worksheet C, Part 1 PPS, Inpatient Ratios

Term	Definition	Reference
Construction or Modification	The establishment, erection, building, alteration, reconstruction, modernization, improvement, extension, discontinuation, change of ownership, of or by a health care facility, or the purchase or acquisition by or through a health care facility of equipment or service for diagnostic or therapeutic purpose or for facility administration or operation, or any capital expenditures made by or on behalf of a health care facility….	
Diagnostic Cardiac Catheterization (DCC)	Performance of Catheterization procedures associated with determining the blockage of blood vessels and the diagnosis of cardiac diseases that are performed in a cardiac catheterization lab or special procedures lab with cardiac catheterization capabilities.	
Full Time Equivalent	A unit of measurement which is equal to one filled, full time, annual-salaried position.	
Interventional Cardiac Catheterization (ICC)	Treatment of cardiac diseases associated with the blockage or narrowing of the blood vessels and diseases of the heart by the performance of percutaneous coronary intervention or similar procedures in a cardiac catheterization lab or special procedures lab with cardiac catheterization capabilities. Cardiovascular interventions include but not limited to Percutaneous Transluminal Coronary Angioplasty (PTCA), rotational atherectomy, directional atherectomy, extraction atherectomy, laser angioplasty, implantation of intracoronary stents and other catheter devices for treating coronary atherosclerosis.	
Method of Financing	The source of funds required to undertake the project or capital expenditure. Forms of financing include equity (cash and securities), lease, mortgages, general obligation bonds, revenue bonds, appropriations and gifts/donations/bequests.	
Net Revenue	Net Revenue is the result of gross revenue less provision for contractual adjustments from third party payers.	American Institute of Certified Public Accountants (AICPA)
Other Public Payment	Includes all forms of direct public payment excluding Medicare and Medicaid. DMH/DD and Veterans' Administration funds and other funds paid directly to a facility.	
Operating Room (Class C)	A setting designed and equipped for major surgical procedures that require general or regional block anesthesia and support of vital bodily functions	Guidelines for Optimal Ambulatory Surgical Care and Office-based Surgery, third edition, American College of Surgeons)

Term	Definition	Reference
Obligation	The commitment of funds directly or indirectly through the execution of construction or other contracts, purchase order, lease agreements of other means for any construction or modification project. NOTE: Funds obligated in a given year should not be carried forward to subsequent years due to phased or periodic payouts. For example, a facility signs a $2 million contract in 2019 for construction of a new bed wing. Construction takes approximately three years with payments being made to the contractor during 2020, 2021 and 2023. The entire $2 million would be listed once as an obligation for 2019 and would not be listed in subsequent years.	
Patients Served by payment source	Include number of inpatients and outpatients served by their payment type.	Payment sources are defined within the questionnaire.
Project	Any proposed construction or modification of a health care facility or any proposed acquisition of equipment undertaken by or on behalf of a health care facility regardless of whether or not the transaction required a certificate of need. Components of construction or modification, which are interdependent, must be grouped together for reporting purposes. Interdependence occurs when components of construction or modification are architecturally and/or programmatically interrelated to the extent that undertaking one or more of the components compels the other components to be undertaken. If components of construction or modification are undertaken by means of a single construction contract, those components must be grouped together. Projects involving acquisition of equipment, which are linked with construction for the provision of a service cannot be segmented. When a project or any component of a project is to be accomplished by lease, donation, gift or any other means, the fair market value or dollar value, which would have been required for purchase, construction or acquisition, is considered a capital expenditure.	
Pediatric cardiac Catheterization	Cardiac Catheterization of patients 0-14 years.	According to Administrative rule 1110.1320
